

Dennis Daseking, M.Sc. (2014)
Consultant and Design Thinking Coach

After your MSc., where did you choose to go?

I started working in the financial services industry for one of the largest consultancies in the world - a great place to acquire project management expertise while always being able to look out for new, exciting challenges and fields of interest.

How did your Heidelberg M.Sc. prepare you?

During my M.Sc. in Economics, applying root-cause analysis and profound scientific standards became part of my DNA. Both are key to the quality of my daily work and provide guidance when navigating through uncharted (business) territory. At the same time, Campus Bergheim is a true melting pot for economics, social and political science, perfectly suited to reaching out to your peers, tutors and professors – an invaluable networking experience. Furthermore, the Alfred-Weber-Institute encourages and facilitates taking part in the various programs to study abroad which Heidelberg University offers to its students.

Your favorite course (or other academic activity including thesis, seminars, presentations) in the Heidelberg M.Sc.?

Policy Evaluation with Prof. Gathmann was a true eye-opener for all who love exploring the underlying truth which can be found in sound data.
